KB75 – Configure Redback Inverter to Western Power Time of Operation Requirements

Version 1.0 Date: 29/07/2022

Introduction

This document describes how to setup a Conserve Schedule on a Redback Inverter, to meet the specific requirements in section 4.3.3 of Western Power's [Basic Embedded Generator \(EG\) Connection Technical Requirements](http://westernpower-website.azurewebsites.net/media/5870/basic-eg-generator-technical-requirements-20211202.pdf) (<http://westernpower-website.azurewebsites.net/media/5870/basic-eg-generator-technical-requirements-20211202.pdf>)

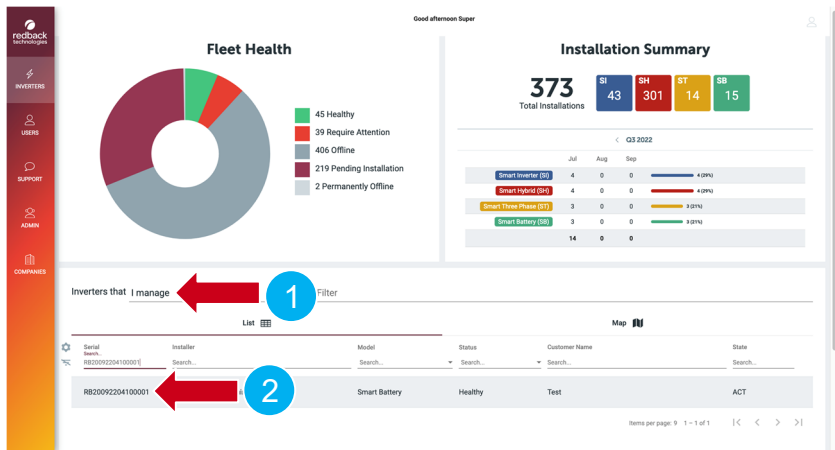

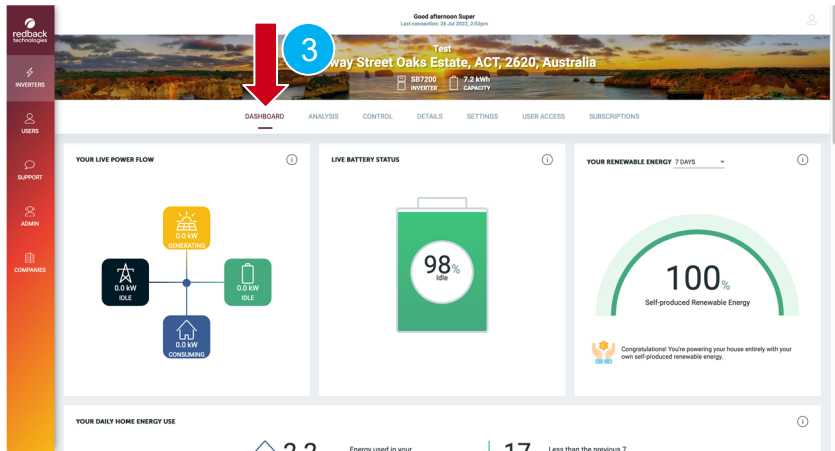

At times outside the Conserve Schedule, the inverter will operate in AUTO mode (does not charge from grid) unless otherwise instructed.

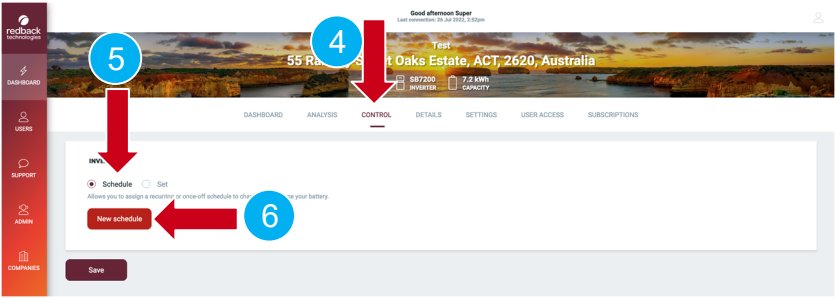

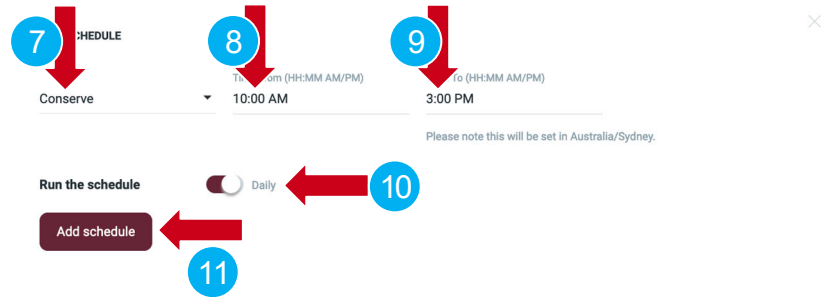

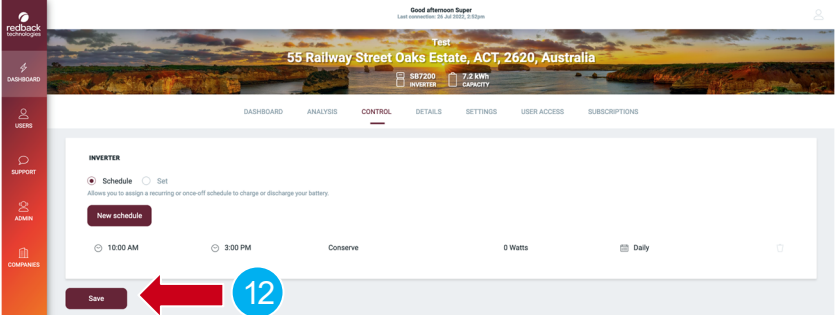

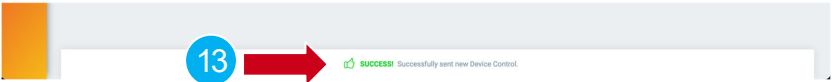

For further information call the Redback Customer Support Team on 1300 240 182, Mon-Fri 8am-4:00pm, Queensland time.

Audience

This document is for use by Redback installers or Redback technical staff. It is not for use by homeowners or non-qualified personnel.

Procedure

Step	Procedure	Image/Comment
1	Go to Inverters that I manage on the Redback Fleet Manager Inverters tab.	
2	Search for the target inverter.	
3	Select the inverter: The inverter dashboard will appear.	

Step	Procedure	Image/Comment
4	Open the CONTROL tab.	
5	Select Schedule .	
6	Click New schedule .	
7	Select Conserve from dropdown list.	
8	Time From: 10:00 AM . <i>Note: The times shown are local times based on the inverter's site address.</i>	
9	Time To: 3:00 PM .	
10	Run the schedule: Daily .	
11	Press Add schedule . The new schedule will be listed at the bottom of the window.	
12	Press Save to save the new schedule.	
13	A Success message will appear at the bottom of screen.
